

Bart Mejia named as new city engineer

The Public Services Engineering Division received news that longtime fellow employee, Bart Mejia, has been promoted to City Engineer.

Chief Executive Officer Tom Hatch, alongside Public Service Director Ernesto Munoz, announced earlier today that the vacant City Engineer position would be filled by Mejia. With more than 28 years of professional experience in engineering and project management, including the past 25 years of dedicated service to the City of Costa Mesa, Mejia will make a smooth transition into his new role.

“His soft but firm personality, professionalism and dedication make Bart an ideal choice to lead the Engineering Division of our Department,” Munoz said. “He has been intimately involved with the development of the Fairview Park Master Plan and managed the construction of many of the Plan’s elements.”

Mejia is a registered engineer in the State of California and a graduate from California State University Long Beach, where he earned a Bachelor’s degree in Civil Engineering. Mejia has also completed post baccalaureate courses from the Water Resources Specialization in the Master of Science in Civil Engineering Program.

With his already active role in many of the city’s public works projects, Mejia will continue to shape the city through his vision.
