Basketball, volleyball courts and other amenities reopen

City staff have reopened several amenities including most park restrooms and picnic tables and basketball and volleyball courts.

City parks staff are also now taking reservations for sports fields to be used for limited team activities.

Playgrounds will remain closed, and reservations for large and small events are not permitted.

As the parks open for additional use, city staff reminds the public to practice social distancing, wash hands frequently, wear face masks and recreate with members of the same household.
