

City Council Chambers upgrades get underway as meetings move to Senior Center

Starting this week, construction for the Audio Visual, Broadcast Production, and Infrastructure Upgrades of Council Chambers and First Floor Meeting Rooms has begun.

All meetings previously scheduled in the Council Chambers, City Council, Planning and Parks commissions will now take place at the Costa Mesa Senior Center located at 695 W. 19th St.

Throughout the duration of the project the Council Chambers and Conference Room 1C/video editing room behind the Chambers will not be available for use. Conference Room 1A will also be affected by the renovation, however it is anticipated that Conference Room 1A will only be offline for a couple of short duration periods.

Additionally, in order for contractors to carry out the renovation, five to six parking spaces adjacent to the east entrance of the Council Chambers will be used for construction staging; and portable sanitary facilities will be set up at the southeast corner of the parking lot next to Vanguard University's current construction.
