City gives approval for expanded park activities

On Friday, June 5, the City of Costa Mesa approved greater use of some City parks to allow for expanded passive activities in addition to the current approved uses of walking, jogging and biking.

Individuals and members of the same household may relax, read, engage in other passive recreation, and picnic, subject to maintaining at least six feet of distance from others who are not members of the same household.

Areas that will remain closed to the public include playgrounds, restrooms, picnic shelter areas, sports courts, and all amenities that have touch points. There can be no gathering, including team sports at this time.

Park visitors still need to adhere to the physical distancing of six feet or more from those not a member of their households, wear face coverings, and limit contact to people in the same household only.

Pet owners are encouraged to continue to be responsible and maintain dogs on a leash at all times, and waste bags should be carried to ensure that pet owners pick up after their pets.
