City Hall to host an Earth Day Festival on Friday April 22

The City of Costa Mesa will host an Earth Day Festival Friday April 22 from 10 a.m. to 3 p.m. at City Hall.

We will celebrate sustainability and being green. We will have an electric bus and other City owned electric vehicles on display. We will do a tree planting and vendors will be there from OCC’s Recycling Center and Recovery Kitchen, Tesla, IKEA and water and sanitary district leaders.

City staff will provide demonstrations of our Green Business Program, solar-powered generators and other equipment, Community Gardens, water quality initiatives, and active transportation projects.

There will be a picnic area with food trucks and tables, a yoga area, kids activities like games, gifts and a composting demo, art displays and documentaries and many more.

Please join us us that day!
