

UPDATED: Costa Mesa Police temporarily suspended parking citations for street sweeping and residential permit parking

UPDATE:

The Costa Mesa Police Department resumed street sweeping enforcement on July 1, 2020. Residents were notified through several social media sites and through email and text via Nixle. Residents are now required to adhere to the street sweeping restrictions in their area. Also, residents should be aware that the police department issues citations for any vehicle parked on the street during the restricted "No Parking" times. Residents cannot park their vehicle(s) on the street after the sweeper cleans if it is within that restricted time frame. City Hall remains closed and therefore, permit parking enforcement is still suspended.

Street sweeping operations will continue until further notice.

Earlier message:

Effective immediately, the Costa Mesa Police Department will suspend issuing parking citations for street sweeping and residential permit parking violations as approved by the City Council on March 17, 2020.

Street sweeping operations will continue until further notice.
