

Fire Station No. 1 Reconstruction project going out for bids

The Fire Station Reconstruction Project has been advertised for construction bids. The bid opening is scheduled for Monday, Oct. 24. The Public Services Department has been working closely with the Fire Department and WLC Architects for more than a year to develop construction documents for this reconstruction.

The scope of work includes demolition of the existing station, and construction of a new, 12,000-square-foot station equipped with a three-bay and double-deep apparatus room, dorm rooms, administrative offices, kitchen, dining room, day room, physical training room, EMS training room, mechanic shop area, and emergency medical supply room. Additional site features include an emergency generator, fuel station, hose drying tower, and a City emergency supply storage unit.

Construction will commence shortly after the holidays in the first quarter of 2017.
