JWA Flight path discussions to take place on Feb. 1

Residents interested in potential changes in flight paths involving John Wayne and Long Beach airports are encouraged to attend a Southern California Metroplex meeting on Wednesday Feb. 1 at the Oasis Senior Center in Corona del Mar.

The meeting, one of several taking place throughout the Southern California region, will be held from 5 p.m. to 8 p.m. at the center’s Evelyn Hart Event Center at 801 Narcissus Ave.

The Metroplex Project would improve the efficiency of airspace in the Southern California Metroplex by optimizing aircraft arrival and departure procedures at multiple airports and military stations,according to Federal Aviation Commission website.

While the Project may involve changes in aircraft flight paths and altitudes in certain areas, it would not result in any ground disturbance or increase the number of aircraft operations within the Southern California airspace, the FAA website states.
