

Maintenance Services Division

Shore up Sidewalks

Raised or elevated sections of sidewalk between a half an inch and two inches in height is one of the leading causes of trip and fall accidents. In response to this, the Maintenance Services Division is expanding its sidewalk preventative maintenance program to improve the City's walkability and decrease the City's liability.

Beginning Monday, Oct. 24, 2016, the Penhall Co. began sidewalk grinding in the College Park tract, while City maintenance crews focus on City-owned parks and facilities.

Using this hybrid approach of in-house staff and outside contractors working simultaneously at separate locations throughout the City, it is expected that over 2,500 sections of elevated sidewalk will be ground smooth this year.

Currently work is being finished in the College Park neighborhood, at which point crews will move to the east side of Costa Mesa and work on the streets between Mesa Dr. to the north, Santa Isabel to the south, Irvine Blvd to the east and Newport Blvd to the west.
