

OCTA postpones Fairview Road lane closures that are part of 405 Improvement project

The Fairview Road traffic shift, which was previously anticipated to begin Saturday Feb. 2, will not take place this weekend due to rain and is now scheduled to begin as early as Saturday Feb. 9 through Sunday Feb. 10 (weather permitting).

The traffic shift, which will move traffic to the westside lanes only, is anticipated to occur under a 12-hour closure from 9 p.m. to 9 a.m.

The work is part of the broader 405 Improvement Project in which OCTA, in cooperation with The California Department of Transportation (Caltrans), is widening the San Diego Freeway (I-405) between State Route 73 (SR-73) and Interstate 605 (I-605).

[Click here to read more information on this project.](#)

The project will improve 16 miles of I-405 between the SR-73 freeway in Costa Mesa and I-605 near the L.A. County line. The project includes adding one regular lane in each direction between Euclid Street and I-605 and making improvements to freeway entrances, exits and bridges. In addition, the project will add the 405 Express Lanes, incorporating the existing carpool lanes and a new lane in each direction between SR-73 and I-605.

The 405 Express Lanes will give solo drivers the choice to speed up their commute for a toll and give options for carpoolers to use the lanes for free. When the express lanes open, two-person carpools will pay a toll only during peak hours and carpools of three or more will be free at all times.
