That's A Wrap! Senior Center Bus Gets An Artsy New Makeover

The Costa Mesa Senior Transportation Program's bus has recently undergone a makeover. What was once a simple, traditional, white passenger bus is now a colorful piece of art that transports seniors to and from the Senior Center and to personal appointments throughout the City.

The bus has been coined as the "Costa Motion" and now bears the slogan of "Keepin' Seniors Moving."

The artistic design, which was created by City staff, incorporates an area for both City program advertising and Conference and Visitors Bureau advertising.

This is just another unique way to promote Costa Mesa as "the City of the Arts."

The Happy Feet Youth Running Club Sprints Back Into Action

The free fitness program for youth called the Happy Feet Youth Running Club allows local Costa Mesa youth to learn the basics in short and long distance running while participating in fun weekly practices and an end-of-season superhero themed 5K run through beautiful Fairview Park.

The program emphasizes teamwork, goal setting and healthy habits all while having fun exercising.

Each child will receive a free Happy Feet T-shirt as well as a complimentary entrance into the Costa Mesa Community Run.

The first practice and registration day are set to take place this Saturday, March 12 at Fairview Park.

Firefighters Battle Blazes In Two Separate Spots This Week

Fire and Rescue teams responded to two working fires this week. The first took place in an unincorporated area of Costa Mesa on Willo Lane where units from Costa Mesa, Newport Beach and Orange County Fire.

Several animals were able to escape or be rescued while the damage to the house left four people without shelter. Red Cross was offered and will assist with lodging if needed.

The second fire occurred in Talbert Park South and burned a large amount of vegetation. The cause of the fires is under investigation. Orange County Fire Authority, Huntington Beach Fire Department and Anaheim Police Department assisted with gaining control of the brush fire.

Access to the fire was hampered by mud due the recent rains and thick brush slowed down the suppression efforts. HBFD and OCFA provided helicopters with water dropping capabilities to

gain control until ground resources could make access.

How to deal with an increase in coyotes

With residents reporting a recent increase in the number of coyote sightings in Costa Mesa, we want to again share some tips on what to do to if a resident has a coyote encounter and how to make your home or backyard less inviting to these predators.

The public should keep in mind that historically, coyote attacks upon humans are extremely rare. In a study presented at the 2004 North American Wildlife and Natural Resources Conference, there were only 56 reported coyote-versus-human attacks resulting in injuries in Southern California in the previous 25 years.

This figure is extremely small when compared to an average 4.5 million people who are bitten by dogs nationally each year. While not normally a danger to humans, coyotes will display defensive behaviors if threatened or cornered. Therefore, it is important to leave a comfortable distance between you and a coyote.

Small pets can easily become coyote prey. Cats and small dogs should not be allowed outside alone, even in a fenced yard. It is highly recommended that small pets always be accompanied by their owner. Though coyotes generally hunt between sunset and

sunrise, they can be observed at all hours of the day and will not pass up the opportunity for an easy meal. A dog or cat left in a backyard can be taken in a matter of moments.

Many steps can be taken to protect you and your property from nuisance animals like coyotes and other wildlife:

- Fence off animal enclosures (fully enclose if possible).
- Keep cats and small dogs indoors or in the close presence of an adult.
- Feed pets indoors.
- Store trash in covered heavy-duty containers.
- Keep yards free from potential shelter such as thick brush and weeds.
- Enclose the bottoms of porches and decks.
- Eliminate potential food and water sources, such as fallen fruit and standing water.
- Eradication and/or relocation of the urban coyote is not effective. These programs actually provide a vacuum in nature, causing these animals to have even larger litters, ultimately increasing the coyote population.
- Practicing these measures will help minimize the nuisances and losses caused by urban coyotes.
- If you locate an injured or potentially dangerous coyote in Costa Mesa, call CMPD Dispatch at 714-754-5252, or for general inquiries leave a message with Costa Mesa Animal Control Services at 714-754-5311.

For even more information, we encourage residents to watch the following Public Service Announcement regarding coyotes and ways to discourage them.

Rea Elementary Named First NMUSD School to Become AVID Affiliate

Rea Elementary will be the first school in the Newport-Mesa Unified School District to convert to an AVID Elementary and Technology School.

Beginning in the 2016/17 school year, Rea Elementary with the adoption of the AVID program will better prepare its students for college and career success in a global society.

Advancement Via Individual Determination is a global nonprofit organization dedicated to preparing all students for college and other postsecondary options. AVID brings research-based strategies and curriculum to educational institutions that develop students' critical thinking, literacy and math skills across all content areas throughout the entire campus.

Key components of AVID include: student success skills, organizational skills and partnerships. Areas of focus include communication, note-taking strategies, critical thinking, time management and goal setting.

To prepare for the AVID implementation and refinement, Rea Elementary teachers will participate in various training courses and continue to collaborate weekly throughout the academic year.

Specifically they will address content areas in reading, writing and math and the alignment to WICOR (writing, inquiry, collaboration, organization and reading) lessons with a strong emphasis on formative data collection to ensure students are meeting their individual goals.

Along with implementing the core AVID components into lesson

plans, Rea Elementary will continue to focus on enrichment opportunities in Science, Technology, Reading, Engineering, Art and Math (STREAM), Visual and Performing Arts (VAPA) and Leadership, aligning all learning opportunities to preparing Rea students for college and career readiness.

For more information, please contact Rea Elementary Principal, Dr. Kalim Rayburn, at 949-515-6905 or krayburn@nmusd.us.

Residents Are Warned To Beware Of The Invasive Tiger Mosquito

With the arrival of the Asian tiger mosquito or Aedes species in the county, the Orange County Vector Control District has issued an alert and is urging residents to protect themselves and their families from mosquito bites. Aside from being itchy and annoying, the bite of an infected female tiger mosquito can spread dengue, chikungunya, or Zika virus.

The district advises residents to use mosquito repellent and mosquito-proof homes by dumping standing water both inside and outside, discarding water-holding containers not being used, and making sure all window and door screens are in good repair.

Click here for more information, including an interactive map to locate infested areas. Also, literature about this health advisory is available at City Hall.

Businesses, churches and city leaders team up to help spruce up Costa Mesa neighborhoods

Costa Mesa Mayor Steve Mensinger, Mayor Pro-Tem Jim Righeimer and Council Member Gary Monahan are partnering with churches and local groups to help revive local neighborhoods throughout the city at the upcoming Neighbors Helping Neighbors event on Saturday April 23, 2016.

Volunteers have identified a number of properties in need of repair and and have begun the prep work for painting. But organizers are looking for at least one more property to help revive.

Also, more funding and additional volunteers are needed. If you know of a property in need of TLC or would like to help

out out just email cm.cool@costamesaca.gov or call 714-754-5156.

Mariners Christian School hosts Read Across America Day

Students at Mariners Christian School in Costa Mesa joined millions of their peers across the country to celebrate the 16th annual National Education Association's (NEA) Read Across America Day on Wednesday, March 2, 2016.

NEA's Read Across America Day, which celebrates Dr. Seuss's birthday and the joys of reading, typically attracts more than 45 million readers, both young and old, to pick up a book and read.

To celebrate the fun and value of reading, MCS teachers in grades TK-5th organized a lineup of guest readers throughout the day to inspire students.

Teachers, administrators, office workers, specialists, and even the school nurse brought in their favorite books to share with children.

Elementary students participated in a Power Reading Hour with Character Dress.

Dressed as their favorite fiction or non-fiction character,

they will spend dedicated time reading in a relaxed environment with pillows, blankets, or their favorite reading friend.

Several classes joined Discovery for Education and FableVision for an online livestream read aloud of the book Going Places from award-winning authors and illustrators Peter H. and Paul A. Reynolds.

This year in concert with Read Across America Day, MCS launched several school-wide initiatives to expand its literacy programs, including the formal adoption of a new Balanced Literacy program based on The Units of Study in Reading.

This program is designed by internationally recognized literacy expert Lucy Calkins and her colleagues at The Teachers College Reading and Writing Project (TCRWP).

Additionally, MCS held a massive used book drive and also solicited monetary donations earlier this year to establish robust classroom libraries in each grade.

For more information NEA's Read Across America, visit www.nea.org/readacross

Prostitution Crackdown Results In 32 Arrests, Mostly At Local Motels

Costa Mesa PD Special Investigations Unit (SIU) made 32 arrests for prostitution over the last two weeks, according to Police Chief Rob Sharpnack.

The majority of these arrests have come from the Vagabond Inn and the La Quinta, Sharpnack said.

These arrests involved both in-person solicitations and meet ups secured through online advertisements, he said.

Additional investigation has shown the prostitutes have left for other cities and the word from multiple interviews is that the Costa Mesa Vice Unit is cracking down and Costa Mesa is not a safe haven for prostitutes.

The Mesa Minute is hot off the presses

Costa Mesa High School leaders each month produce the Mesa Minute, a newsletter chock full of news, announcements and events related to Costa Mesa High School.

General Plan And General Plan EIR Are Ready For Distribution Today

City planners are unveiling the draft General Plan and draft General Plan EIR today, which required an enormous amount of work effort that required technical acumen at the highest level from a wide range of disciplines, as well as exceptional writing and time management skills.

Producing quality documents was made possible by a dynamic team comprised of city planners, planning consultants, attorneys, engineers, and GIS/graphic specialists (and more). While planning staff anticipates many comments on these drafts as this work effort continues, it expresses appreciation for all the professional excellence and dedication to this project up to this critical milestone.

Click here to see an infographic that details how the city has gotten to this point.

Segerstrom Center for the

Arts Offers Sensory-Friendly Programming

As part of its 2015-2016 Family Series, the Segerstrom Center for the Arts is presenting a series of sensory-friendly performances with the hope that everyone in the community will have the opportunity to experience the joy of attending a live performance.

Showing in the month of March are "Big Bad Wolf" and "Egg," both performances specially designed for sensory sensitivity.

These shows are designed specifically for patrons on the autism spectrum, and others with sensory sensitivity, to enjoy with their families; this is the perfect opportunity to introduce young children to live theater.

Sensory-friendly precautions are taken to help patrons enjoy their theater experience:

In advance of each performance, families will receive a social story—a visual introduction for the child of everything he or she will encounter so nothing is a surprise. From a picture of the parking areas to ticket takers and the inside of the theater, everything will look familiar when they arrive.

☐They will also receive information about the show itself so they know what to expect from the performance.

Various components are highly considered and alterations are made in areas such as: lighting, sound, seat configuration, staff training and being relaxed when it comes to movement and speaking during a performance.

For more information about the Center's sensory-friendly performances, visit their website at www.SCFTA.org/sensoryfriendly, or email Access@SCFTA.org.
