

Public Services completes intersection safety lighting upgrades

During December 2017, Public Services contracted with Express Energy Services to upgrade 374 existing intersection safety lights from high pressure sodium to light emitting diode (LED) fixtures.

The fixtures were replaced between the hours of 9:00 p.m. and 5:30 a.m. The LED's will enhance the visibility at the intersections and are more energy efficient and sustainable, thereby reducing the City's electrical and maintenance costs.

The installed LED's are eligible for rebates through the Southern California Edison rebate program. The City anticipates receiving an estimated rebate amount of \$95,145.
