

Public Services completes parkway, sidewalk and trail projects

Public Services recently completed the installation of new Americans with Disabilities Act (ADA) compliant wheelchair ramps at the intersection of Carnegie Avenue and Swarthmore Lane.

This was part of the city's ongoing effort to enhance citywide accessibility and meet ADA requirements. In addition to installing wheelchair ramps, the project also included reconstruction of the cross-gutter and splash pad to improve drainage at this location.

Public Services also recently completed the reconstruction of the parkway drain at Wellesley Lane near Fairview Road (see before and after photos). The project entailed demolition of the deteriorated parkway culvert and reconstruction of a parkway drain to meet the city's standards. In addition to improving drainage conditions in the cul-de-sac, the project also included minor improvements to deteriorated sidewalk to eliminate displacements.

Improvements to the Harbor Boulevard Cornerstone Bicycle Trail at Fairview Development Center was also completed recently.

The improvements included the Fairview Developmental Center planter reconfiguration that reduced the planter size and the installation of concrete in its place to ultimately provide a larger turning radius for bicyclists.
