

Network for Homeless Solutions and Community Partners Reconnect Homeless to Their Families

Thanks to the collaborative efforts of the Network for Homeless Solutions and its community partners, three individuals living on the streets of Costa Mesa were reconnected with their families within a 48-hour period.

Two individuals were sent home to Texas, one who came to Costa Mesa for work and lost his job and the other who suffered mental issues. A third person, who came to a sober living facility in Costa Mesa, was sent home to Ohio.

All three people are now off the streets of Costa Mesa and back home thanks to the hard work of this dedicated team.
