

City earns 'Mega' water saver title from Mesa Water District

At the Mesa Water District's Board of Directors regular meeting on Thursday April 14, the City of Costa Mesa was recognized for its water conservation efforts and presented with the "Mega" Mesa Water Saver award.

Through the city's efforts, along with other local agencies, businesses, schools and residents, the water district has reached and exceeded the state's 20 percent conservation mandate with over 21 percent reduction in water use from June 2015 through February 2016.

"The 10 Mesa Water customers we're recognizing today include property owners and managers with varying responsibilities, who are clearly dedicated to doing the right thing and engaging in activities that achieve higher-than-average water savings during this extended drought," said Mesa Water Board President Shawn Dewane. "We're proud to be part of a community so dedicated to water efficiency."

The water district focused on outdoor watering, reducing water waste at residential, multi-family, business and government properties.

Customers who increased water efficiency beyond expectations were responsible for higher-than-average water savings ranging from 31 percent to 56 percent.

Businesses and Homeowners' Associations amended their outdoor watering for larger landscapes to comply with Mesa Water's watering schedules that changed with seasonal temperatures and weather.

Single-family homeowners and local government agencies implemented additional water-saving techniques, including installing a pool cover, replacing thirsty turf with water-wise landscaping, updating old irrigation with drip irrigation, reducing sprinkler times, installing smart-timers, and decreasing off-peak utility use.

The following were recognized at Thursday's event by Mesa Water's Board of Directors as "Mega" Mesa Water Savers:

- Janice and Steven Frates
- Susan and Geoff West
- Brookview Homeowners' Association
- Harbor Village Apartments
- C.J. Segerstrom & Sons
- Mariners Christian School
- Vanguard University
- City of Costa Mesa
- John Wayne Airport
- Newport Mesa Unified School District

Students get Immersed in Signature Academies

College Park Elementary School's Mandarin Immersion Program is accepting applications for the 2016-2017 school year. The program is available to kindergarten and first grade students who reside within the N-MUSD attendance boundaries. Enrollment is open district-wide and is not restricted to the

College Park attendance zone.

Mandarin Chinese is the native language of more than 870 million people, making it the most widely spoken first language in the world. Kindergarten students currently in the program will transition to a Mandarin program in first grade, with the goal of continuing through middle and high school.

N-MUSD also offers two additional specialty elementary school programs – a Modern Scholars program at Adams Elementary and a Spanish bi-literacy program at Whittier Elementary. These programs are available for kindergarten students and first grade students (limited spaces available for first grade).

The District also offers Signature Academies at each high school, offering students a global competitiveness to better prepare them for college and career success. Students enrolled in Signature Academies receive unique curriculum options and supplemental activities that complement the core academic programs at N-MUSD high schools.

Signature academies include specialty programs centered on key, industry leading careers and areas of study such as Science, Technology, Engineering and Arts and Math (STEAM). Each of the four N-MUSD High Schools offer unique programs, which are open to all ninth grade students within the N-MUSD, regardless of their zone of residence. [Click here for more information about the N-MUSD Signature Academies.](#)

The application deadline for elementary school specialty programs and the high school signature academies is Friday, April 15, 2016.

Estancia Drama presents **Urinetown**

Estancia High School's award winning drama department ends the 2015-2016 season with the presentation of *Urinetown*, a hilarious tale of greed, corruption, love and revolution in which water is worth its weight in gold. The Tony award winning musical sheds a satirical light on the drought, extreme political agendas, and musical theatre itself.

Urinetown premiered on Broadway in 2001 with Estancia alumna Spencer Kayden as Little Sally, the loveable pig-tailed girl who helps explain the plot. Kayden is also known for her membership in the recurring cast of comedians on the sketch comedy series *MADtv* and also played the role of Mrs. Pepper in the popular *Nickelodeon* kids series *Blue's Clues*.

Performances will be held April 28 – 30 at 7:30 p.m. in the Costa Mesa High Performing Arts Center, 2650 Fairview Road. Tickets are \$10 for students and \$15 for general admission and are currently available for presale. Tickets will also be made available at the door.

For ticket information call Pauline Maranian at (949) 515-6537 or the ASB office at (949) 515-6506.

Costa Mesa telecommunications team celebrates national recognition week

The 20-plus members of Costa Mesa's Telecommunications Bureau received some special recognition this week as city, police and fire officials celebrated the National Public Safety Communicators Week that runs through April 16.

The week, sponsored by the Association of Public-Safety Communications Officials (APCO) International and celebrated annually, honors the thousands of men and women who respond to emergency calls, dispatch emergency professionals and equipment, and render life-saving assistance to the world's citizens, according to a statement on the association's website.

City CEO office staff, including CEO Tom Hatch, was one of several departments to provide food, deserts and beverages to

the team as a way to honor and thank them for the work they do.

On Wednesday April 13, Hatch and others visited the bureau, located just behind City Hall, and met with members of the telecom team and got a demonstration of their duties.

“They provide quality customer service to residents by continually and quickly helping to solve problems for the community,” Hatch said.

CEO Tom Hatch and telecom Supervisor Sandra Marquez

The communications officers who work in the bureau take in more than 100 calls a day and put in 12 and sometimes 18-hour shifts taking calls from accident victims, suicidal, belligerent and despondent callers or victims of fire or crime.

“How often do you have to take a call from someone who is having perhaps the worst experience in their life,” said Costa Mesa Police Lt. Keith Davis, who supervises the Telecommunications Bureau. “They do it every single day.”

Davis noted the bureau is only one of two in the county that manages all dispatch duties for a single city. The telecom team handles both emergency and non-emergency calls for police, fire, animal control maintenance and water services. They provide members of the public with directions on how to respond to medical emergencies.

Davis, who has supervised the crew for a little more than a year, said he's learned a lot about just what they do.

"I think they are extremely deserving of the recognition," he said. "This is an opportunity to tell them that we do appreciate them and there are a lot of people dropping by and recognizing them. It makes them feel they are not unnoticed. They are real excited."

Davis pointed out that the dispatchers and call takers end up being spokespeople for the city. How a member of the public is treated can really change perceptions.

"It helps to have talented people," he said. "I thought I knew a little bit about dispatch. I had no idea about the scope of their responsibilities. Doing what they do on a daily basis, especially being short staffed, is even more admirable."

City to test drive new hydrogen-powered Toyota

Toyota Motor Sales USA will be lending the City a 2016 Toyota Mirai for a couple of weeks to test drive.

The car has an electric motor powered by hydrogen fuel cells, resulting in a 100-percent-pollution-free vehicle.

The fuel cells produce electricity from the high pressure hydrogen with only water as a byproduct. The 300 horsepower motor moves the car exceptionally quick, without any motor noise or exhaust.

Hydrogen is available locally at the Valero gas station on Harbor Boulevard to retail customers.

Several City departments will be given an opportunity to drive the vehicle for routine City business over the two weeks of the test.

The car will travel over 300 miles per fueling and may be leased by the public in the \$400-500 a month range or purchased with State incentives for the mid \$40,000's.

Tesla Motors presented with Mayor's Award

Costa Mesa Mayor Steve Mensinger announced that Tesla Motors, an innovative automotive and energy storage company known for its high-end luxury electric cars, is the winner of the Mayor's Award presented at the Tuesday April 5 City Council meeting.

Accepting the award on behalf of the company was Tesla Store Manager Peter Najera and Service Manager Joe Estrada.

"We are deeply honored and this is a wonderful and amazing thing that you have done for us," Najera said. "We are thrilled to be here in Costa Mesa. It's a perfect location."

Costa Mesa is not only one of five Tesla sales locations in the county, but is also home to one of only two Tesla service centers in the county.

Tesla forgoes the typical dealership model that dominates the business, and instead sells cars directly to their customers through company owned stores or galleries, which are usually located in shopping malls.

For years, Tesla operated locally out of a 10,000-square-foot facility on Pullman Street in Costa Mesa, adjacent to the 55 freeway. Nearly a year and a half ago they expanded their operation to also include a 27,000 square foot facility just down the street.

The new facility serves as a state of the art service center, complete with 26 service bays, two alignment bays, a detail center and car wash area in two buildings.

A typical day finds six service advisors and 20 service technicians servicing 30-35 vehicles per day, making the Costa Mesa location the number one Tesla Service center in terms of volume in the entire nation.

City reaches landmark agreement with Solid Landings to cease sober living home operations

The City of Costa Mesa reached a landmark settlement agreement with Solid Landings Inc. that will result in the immediate

closure of 15 of the company's residential sober living homes and the closure of 18 more over the next two to three years at the latest.

"This is a major victory both for the residents of Costa Mesa and city officials who worked diligently on this issue for several years," said Mayor Steve Mensinger. "We have invested considerable resources in legal, law enforcement and code enforcement efforts to ensure a balance between our residents who deserve neighborhood peace and tranquility and those who seek facilities to battle their addiction problems."

The agreement with Solid Landings, the largest group home operator in the city of Costa Mesa, will effectively end years of both federal and state litigation between the company and the city and will keep intact the city's two groundbreaking ordinances that place appropriate restrictions on group homes, limiting the number of occupants and the proximity between similar homes.

By entering into the agreement, Solid Landings will ultimately close 33 residential facilities and no legal fees will be paid by the city. Further, Solid Landings will relocate its counseling facilities to two locations in the city, one in a commercial area and the other in an industrial location.

The settlement discussions began approximately a month ago when the City Council directed Mayor Pro-Tem Jim Righeimer to negotiate on behalf of the city.

The negotiations between Righeimer and Solid Landings resulted in an agreement reached Tuesday April 5 when the council voted 3-0 to accept the terms of the settlement.

The time to prepare for fire season is here

Believe it or not, Southern California is on the verge of beginning the fire season.

In preparation for that, Costa Mesa Fire & Rescue has started the first phase of wildland firefighting training.

Fire crews traveled to Gypsum Canyon to train with other Orange County agencies to prepare for what is expected to be a busy season.

In addition to preparing for potential brush fires, members of the Costa Mesa Fire & Rescue have been training diligently to prepare probationary firefighters for their manipulative testing.

Although, the focus is to train probationary firefighters, seasoned firefighters benefit from the training as they coach our new generation of firefighters.

The battalion chiefs have been conducting evaluated drills for every crew assigned to their shift.

This training exercises communications, tactical decisions and crew continuity.

CEO Leadership Award goes to CSI Supervisor Kimberlee Guluzian

At the monthly Meet and Greet ceremony, City CEO Tom Hatch awarded CMPD Crime Scene Investigation Supervisor Kimberlee Guluzian with the Leadership Award for March.

Prior to coming to Costa Mesa in 2013, Guluzian began her career in law enforcement working in the jails for the San Diego County Sheriff's Department and at the Orange County Sheriff's Department as a Forensic Specialist where she worked 10 years processing crime scenes.

Guluzian has been recognized for her leadership, initiative, positive attitude, and willingness to take responsibility for ensuring sound crime scene investigative services are provided to the Police Department and the City of Costa Mesa.

CSI Supervisor Guluzian is known for routinely responding in the field to handle calls for service or coming in after hours for major incidents when CSI is not available. These incidents have ranged from basic theft scenes to active homicide investigations. As a supervisor, she has also addressed several operational challenges to ensure the CSI Unit remains effective.

In addition to her primary responsibilities, Guluzian instructs for the Field Evidence Technician and Crime Scene Investigator courses, the CMPD Citizens' and Teen Academies, and for new Costa Mesa officers during patrol school. She also regularly participates in other department related activities like the annual Baker to Vegas relay and OCSD academy graduations to name a few.

Guluzian's forensic expertise and skills have not been limited to law enforcement. For eight seasons, she provided her expertise as a crime scene technical advisor for the hit TV show Dexter and worked on the Oscar Pistorius case as a technical expert for the TV program Carte Blanche.

In addition, the Leadership Award, six newly hired employees were welcomed to City Hall at the event.

Time for some Easter 'Egg-Citement' this Saturday

Costa Mesa real estate company Torelli Realty is proud to announce its annual Egg Hunt, "**Egg-Citement**" will take place this Saturday, March 26 from 9:30 a.m. to 12 p.m. at Tanager Park.

Torelli Realty has sponsored this event for over 25 years and it is a highlight of the spring season for children and adults alike.

Egg-Citement offers an Egg Hunt that is broken down into age

groups for the children. The first round of the egg hunt for children from 2-4 starts at 10 a.m. and each successive age group goes for 15 minutes, grabbing candy and toys, until everyone gets through. There will also be pony rides, a petting zoo with small live farm animals, coloring and jellybean contests, and a bounce house.

The Easter Bunny himself will also be present and available to take photos with all attendees.

Besides being a highly anticipated event that brings the community together, Egg-Citement also gives local schools a chance to do some much needed fundraising. The event and attractions are free, however several local schools/organizations will be selling concessions to raise money for their programs.

City to address School Zone Traffic Calming soon

The Costa Mesa Public Services Department will soon be initiating the construction phase of a much-needed school zone traffic calming project.

This project will target multiple locations throughout the City. The project will include replacement of all school zone warning flashers with solar powered devices and improved intelligent technology, which enables them to be activated when children are in school.

The project also includes installation of 20 radar speed

feedback signs that will have built-in technology to collect speed and volume data that will allow city staff to implement future safety upgrades and enable better planning of focused enforcement in and around Costa Mesa schools.

Other improvements include installation of 220 pedestrian count down heads at various signalized intersections in the vicinity of Costa Mesa schools.

Award of a contract for this project by City Council is anticipated in April 2016. Installations would follow in Summer of 2016.

Veterans of all stripes attend Heroes Hall groundbreaking

On Wednesday morning March 16, several hundred civic, business and elected leaders, dignitaries and war veterans celebrated the groundbreaking of the new Heroes Hall veteran exhibit that have a permanent home at the OC Fair & Event Center.

“This is dedicated to the honor and sacrifices to those who served our country,” said Michele Richards, the vice president of business development for the fair and event center.

Richards was one of a number of speakers who included board members Doug La Belle and Nick Beradino and Bolton Colburn, who runs the Exhibits and Education Department at the fair and event center.

The groundbreaking duties for what will be the county's first museum dedicated to veterans fell to those who served in wars from Afghanistan to World War II.

Those veterans included one of the last remaining Tuskegee Airmen, Robert Friend, Korean War vet Robert Dugan, Vietnam vet Frank Orzio, Desert Storm vet Douglas Wooley and Claudia Acosta of the U.S. Army.

The OC Fair & Event Center was once part of the Santa Ana Army Air base, a 1,300-plus acre training facility that was active during World War II. That base is now home to the fairgrounds, Orange Coast College, Costa Mesa High School, Davis Elementary

and TeWinkle Park.

“As the former home of the Santa Ana Army Air Base, the OC Fair & Event Center is a natural fit for the Heroes Hall Exhibit. We are honored to host this historic exhibit and look forward to seeing it become a reality in the coming months,” the fair’s CEO Kathy Kramer said in a statement.

The exhibit is expected to encompass more than 12,000 square feet with indoor/outdoor exhibit space. The former “Memorial Gardens” building will be relocated and reconstructed as part of the overall exhibit, which will also include memorabilia and tributes to California veterans.

Crews are expected to break ground in March with an expected completion date of Veteran’s Day, Nov. 11, 2016. The exhibit is expected to attract more than 1.5 million visitors each year.

In 2015, the OC Fair & Event Center Board voted in favor of a \$2 million contribution to start the funding efforts for Heroes Hall.

The Board also approved the creation of the Heroes Hall Veterans Foundation to lead in fundraising for the ongoing maintenance and operation of Heroes Hall.

The city of Costa Mesa donated \$25,000 toward the project, one of many local entities who have showed their support.

To learn more about how to donate and for periodic updates on the Heroes Hall exhibit [click here](#).
