

Things Look Brighter for the Old City Yard

This week, the City of Costa Mesa received an energy rebate of \$2,300 due to the City's participation in the Orange County Energy Partnership.

Currently, the City of Costa Mesa, together with the Cities of Huntington Beach, Newport Beach, Westminster, and Fountain Valley meet monthly with Southern California Edison representatives to evaluate energy efficiency projects at each respective partner city.

Costa Mesa's rebate stems from the replacement of multiple 750 Watt Metal Halide light fixtures being replaced at the old city yard facility in the mechanic's area.

These "energy hog" fixtures were replaced with state-of-the-art LED lighting fixtures that utilize approximately half the energy of the old fixtures.

The end result is a brighter and safer working environment for the employees who use the facility on a daily basis.
